---

CUE recognizes that our members' privacy is extremely important. As our organization and site are in development and non-commercial in nature, we currently require a minimum of information to join the email list (name, email, graduation year or year last attended, city and subscription preferences). As the group grows we may require additional information to verify alumni status.

Information submitted to CUE-network.org will only be used for contacting you regarding group meetings and events and/or sending what we hope will become a regular monthly newsletter, all subscriptions are handled through a "double opt-in" process.

Currently we are using an email list service provided by "godaddy.com" to collect and manage member information, and access to this information is limited to members of our organizational committee as we try to build the membership of our group.

If you have any questions, please email John Akin (MFA '99) on the web committee at [info@cue-network.org](mailto:info@cue-network.org)
